Castle High Value, an EXL company, offers excellence for your high value clients. Let us put to work our expertise, innovative technology tools and a dedication to customer service.

Castle High Value is widely regarded as the insurance industry's premier high value residential insurance survey company. We have assembled the most highly trained and experienced staff available, all of whom are experts in their field.

Our nationwide services include cutting-edge valuation methods, expert underwriting and risk assessment as well as commercial loss control techniques. With **Castle High Value**, you can be assured that your personal lines accounts will be handled with professionalism.

Skilled professionals from our High Value team will handle this unique class of business with superior attention to detail.

What to expect from Castle High Value

We realize that our interaction with your policyholders is a direct reflection of your company and we take this responsibility very seriously. All **Castle High Value** surveys are by appointment only and typically take 1 to 2 hours for the visit.

During the appraisal process, we conduct an interior tour of the home, snap digital photos and take measurements.

Castle specialists methodically document the home's unique construction and architectural features in order to derive an accurate and strongly supported replacement cost. We also identify any hazards and will supply loss control recommendations when appropriate.

Our objective is to become a trusted partner by providing accurate valuations, a thorough rating and detailed underwriting information. In doing so, Castle will keep your book insured to value and improve overall profitability.
